Variable Annuity Systematic Withdrawal Options for Contracts with a Guaranteed Withdrawal Benefit

Please verify the withdrawal provisions of your contract prior to making a selection. Make sure you understand the impact taking withdrawals will have on your values and riders.

Consult with your financial professional to determine a withdrawal strategy that is right for you.

A. Lifetime Income Guarantee - Total amount available for withdrawal each year.
Your payments will be reduced if your benefit decreases, which includes taking additional withdrawals during the contract year. Your payments will increase if your benefit increases. Payments started during the contract year will be higher than in subsequent years if necessary to ensure that the entire annual amount will be distributed. If this amount exceeds your Principal Back Guarantee, it will reset your principal back benefit. Refer to your product prospectus for age eligibility and specific payout percentages. This option is not available for the Guarantor Withdrawal Benefit rider.

B. Principal Back Guarantee - Total amount available for withdrawal each year.
Your payments will be reduced if your benefit decreases, which includes taking additional withdrawals during the contract year. Your payments will increase if your benefit increases. Payments started during the contract year will be higher than in subsequent years if necessary to ensure that the entire annual amount will be distributed. If this amount exceeds your Lifetime Income Guarantee, it will reset your lifetime income benefit and the "Benefit Impact Acknowledgement Form" is required before your request will be processed. This form will be mailed to you or you may contact our office for assistance. Refer to your product prospectus for specific payout percentages. This option is not available for the *SecureSource Stages NY*[®], *SecureSource 3 NY*[®], *SecureSource 4 NY*[®] and *SecureSource 4 Plus NY*[®] rider.

C. Fixed Dollar Amount - Up to the total benefit amount available without exceeding Lifetime Income Guarantee.
The dollar amount you have specified will be lowered to the maximum amount currently available as a level payment each year under the Lifetime Income Guarantee if you have requested more than the maximum amount. If this amount exceeds your Principal Back Guarantee, it will reset your principal back benefit. If you take additional withdrawals from your contract (via one time partial withdrawal) or your benefit is reset (due to a Portfolio Navigator investment option change), be sure to review and adjust your SWD arrangement so that you do not exceed your guaranteed benefit. For annuities with the *SecureSource Stages NY*[®], *SecureSource 3 NY*[®], *SecureSource 4 NY*[®] and *SecureSource 4 Plus NY*[®] rider, your payments will be reduced if your benefit decreases. In addition, your payments will be increased up to your requested amount if your benefit increases. This option is not available for the Guarantor Withdrawal Benefit rider.

Fixed amount of \$ for each withdrawal. Once established, this amount will not increase.

Withholding Instructions

Note: If this is a Custodial IRA, please leave this section blank as the Custodian is responsible for the tax withholding.

- **Federal Withholding:** You are liable for federal income tax on the taxable portion of your distribution. If total withholding is not adequate, you may be subject to estimated tax payments and/or penalties.
- **State Withholding:** Withholding rules vary by state. Clients may have the option to: (1) opt-out of withholding, (2) elect default state tax withholding, or (3) increase the rate of withholding. Depending on the state, state tax withholding could be mandatory, optional, unavailable, or the client may need to complete a state-specific form. For state tax withholding rules, go to riversource.com/statetax.
- Please note that taxes withheld per your elections or in accordance with state rules will not be refunded.
- Different withholding rules apply in certain situations: If we do not have a valid Taxpayer Identification Number on the account, if the payment is delivered outside the United States or if you are a non-resident.
- For all tax-qualified annuities: Withholding is taken from the total amount distributed.
- For non-qualified annuities: Withholding is taken from the taxable amount distributed.
- Please consult your tax professional for additional information regarding federal and/or state withholding.

Authorization and Acknowledgments

I have read and understand:

- **I have reviewed the withdrawal provisions and conditions of my contract prior to making my withdrawal selection, and understand the impact taking this withdrawal will have on my values.**
- If my annuity has the *SecureSource 4 Plus NY*[®] benefit, any withdrawal taken (including Required Minimum Distributions) before the Base Doubler effective date will permanently set the Base Doubler value to \$0.
- **I understand if my annuity has an optional benefit rider, certain riders contain features that may be negatively impacted by taking a withdrawal.**

Authorization and Acknowledgments (continued)

- **If you have a variable annuity with a withdrawal benefit rider and you take a withdrawal that is higher than the maximum guaranteed amount, it is considered an “excess withdrawal.” An excess withdrawal will permanently decrease your guaranteed income and benefit values.** If you are uncertain if this withdrawal request will be considered an excess withdrawal or would like to see how an excess withdrawal will reduce your future guaranteed income and benefit values, call a Customer Contact Professional at 1-800-541-2251 to request a personalized calculation showing the effect of the withdrawal **prior to submitting this request**
- If you do not contact us prior to submitting this form and the amount you have requested will result in an excess withdrawal, we will require that you complete the “Benefit Impact Acknowledgement Form” before processing can occur.
- My withdrawal may include taxable income and if I am under age 59½, I may be subject to an IRS early withdrawal penalty.
- Federal Tax law requires all non-qualified deferred annuity contracts issued by a company to a policyholder during the same calendar year be treated as a single, unified contract (Serial Annuities). All income included and taxed in a distribution for one or more Serial Annuities are aggregated with regard to any earnings and cost basis. If your annuity is a Serial Annuity, the tax information included with your check may not include the Serial Annuity calculation. Tax information for a Serial Annuity distribution will be sent in a separate letter.
- If my annuity is tax non-qualified, systematic withdrawals are taxed as partial withdrawals (generally, earnings are removed first) and not as annuitizations (earnings are removed pro-rata throughout the payout period).
- This paragraph applies only to nonqualified annuities, and only if the annuity is or was part of a partial 1035 exchange from one annuity to another annuity. IRS Revenue Procedure 2011-38 states if withdrawals are taken from either annuity within a 180-day period following a partial 1035 exchange, the IRS will apply general tax principles to determine the tax treatment of the previous exchange and the subsequent withdrawal. For example, a distribution from either contract within 180 days of the exchange may result in additional taxable income related to the contracts involved in the exchange. The IRS tax treatment may be different than what is reported on Form 1099-R. A tax advisor should be contacted before any withdrawals are taken from either annuity contract during the 180-day period. This 180-day limitation on withdrawals does not apply to annuitized amounts if the annuitization is for life/lives or a period of 10 years or more.
- **I understand that my decision to take this withdrawal is final.**
